**ARTICLE 3
SYSTEM SPECIFICATIONS AND CONSTRUCTION**

SECTION 3.1 - AREA TO BE SERVED

(a) Service Area: Subject to Section 3.1(c) below, the Franchisee shall, upon request, make Cable Service available to residents in dwelling units on Public Ways and Private Roads.

(b) New Construction/Development: In the case of new construction or property development where utilities are to be placed aerially or underground, or of the installation of conduit for the location of utilities, the utility, the developer or the property owner shall give Franchisee reasonable notice of not less than sixty (60) days prior to such construction or development, and, if applicable, of the particular date on which open trenching will be available for Franchisee's installation of conduit, pedestals and/or vaults, and materials to be provided at Franchisee's expense, or as otherwise agreed by the parties. The Franchising Authority, or its designee, shall exercise reasonable efforts to have the Planning Board and developers give timely written notice to Franchisee of trenching and underground construction. Franchisee shall also provide specifications as needed for trenching. Cost of trenching and easements required to bring service to the development shall be borne by the developer or property owner. Franchisee shall apply for pole attachment agreements within thirty (30) days of its receipt of the contribution in aid of construction from all subscribing dwelling units, and shall make available cable service within ninety (90) days from the receipt of the pole attachment agreements and other necessary permits by Franchisee, subject to weather, force majeure, and the performance of make ready

(f) Standard Installation: Installation costs shall conform with the Cable Act. Any dwelling unit within one hundred fifty feet (150 ft.) aerial or one hundred fifty feet (150 ft.) underground of the Cable System shall be entitled to a Standard Installation rate, unless the sub-surface is a hard surface or requires boring through rock or a similar hard surface (i.e. concrete, asphalt, etc.).

(g) Non-Standard Installation: Installations of more than one hundred fifty feet (150 ft.) or which involve a hard surface or which require boring shall be provided at a rate established by the Franchisee in accordance with applicable federal and state laws. For

installations more than one hundred fifty feet (150 ft.), not involving a hard surface, the first one hundred fifty feet (150 ft.) shall be at the Standard Installation rate.

(a) The Franchisee shall maintain a Cable Television System, fully capable of carrying a minimum bandwidth of 750MHz

(b) The Cable System shall be designed and constructed so that television station broadcast signals received by the Franchisee in stereo are transmitted in stereo to Subscribers. Consistent with 47 U.S.C. § 534 (b), Franchisee shall comply with all regulations concerning the transmission of advanced television signals.

(c) Notifications to customers and the Franchising Authority regarding changes in rates, programming services or channel positions shall be made in accordance with applicable FCC regulations, currently 47 C.F.R. part 76, at Sections 76.1602, 76.1603 and 76.1619, as they may be amended. SECTION 3.7 - GOVERNMENT CABLE DROPS TO THE CABLE SYSTEM

The Franchisee shall provide, as directed in writing by the Franchising Authority, (i) one cable drop connected to the Cable System within the standard installation requirements of Section 3.1(d), (ii) one Outlet, and (iii) the Basic Cable Service to all municipal and public school buildings which are listed in Exhibit A hereto and are located along the Cable System trunk and distribution system. The obligation of Franchisee to provide drops, Outlets and Basic Cable Service shall pertain throughout the life of this Renewal Franchise and shall apply specifically to municipal and public school buildings newly constructed or acquired subsequent to the commencement of this Renewal Franchise, which shall be wired within one-hundred and eighty (180) days of delivery of a written request from the Franchising Authority to Franchisee. The Franchisee shall consult with the Franchising Authority or its designee to determine the appropriate location of each Drop and Outlet prior to the installation of the free service.

**ARTICLE 4
TECHNOLOGICAL AND SAFETY STANDARDS**

SECTION 4.1 - SYSTEM MAINTENANCE

(a) In installing, operating and maintaining equipment, cable and wires, the Franchisee shall avoid damage and injury to trees, structures and improvements in and along the routes authorized by the Franchising Authority except as may be authorized by the Franchising Authority if required for the proper installation, operation and maintenance of such equipment, cable and wires. Any such unauthorized damage shall be reported promptly to the Franchising Authority.

(b) The construction, maintenance and operation of the equipment, cable, conduit, fiber and wires of the Cable Television System for which this Renewal Franchise is granted shall be done in conformance with all applicable laws, bylaws of general applicability, codes and regulations, including but not limited to OSHA, the National Electrical Safety Code, and the rules and regulations of the FCC as the same may be hereafter changed or amended.

(c) Operating and maintenance personnel shall be thoroughly trained in the use of all safety equipment and the safe operation of vehicles and equipment. All areas of the Cable System shall be routinely inspected and maintained so that conditions that could develop into safety hazards for the public and/or operations and maintenance personnel can be corrected before they become a hazard. The Franchisee shall install and maintain its equipment, cable, fixtures and wires in such a manner as shall not interfere with any installations of the Town or any public utility serving the Town.

(d) All structures and all equipment, cable and wires in the Public Ways and Private Roads and places of the Town, wherever situated or located shall at all times be kept and maintained in a safe and suitable condition and in good order and repair.

(e) The signal of any television station carried on the Cable Television System shall be carried without material degradation in quality at all Subscriber locations within the limits imposed by the technical specifications of the Cable System and as set forth by the FCC. The Cable System shall be operated and maintained so as to comply with the technical standards set forth in the FCC's rules and regulations as they apply to cable television systems. Upon written

request by the Franchising Authority or its designee, Franchisee shall provide proof of compliance with FCC signal requirements.

(f) The Town reserves the right to reasonably inspect all construction and installation work for compliance with applicable laws, codes, ordinances and regulations and with provisions of the Renewal Franchise. The Franchising Authority or its designee(s) shall have the right to inspect the plant, equipment or other property of the Franchisee in the Town's Public Rights of Way at reasonable times and under reasonable circumstances. The Franchisee shall fully cooperate in such inspections; provided, however, that such inspections are reasonable and do not interfere with the operation or the performance of the facilities of the Cable System, and that such inspections are conducted after reasonable notice to the Franchisee. The Franchisee shall be entitled to have a representative present during such inspections. All inspections shall be at the expense of the Town.

(g) All lines, cables and distribution structures and equipment, including poles and towers, erected by Franchisee within the Town shall be located so as not to obstruct or interfere with the proper use of the Public Ways, as defined herein, and not to interfere with the existing public utility installation. Franchisee shall have no vested right in a location except as granted herein by the Renewal Franchise, and such construction shall be removed by Franchisee at its own cost and expense whenever the same restricts or obstructs or interferes with the operation or location of said Public Ways, provided, however, that this standard shall apply to all Persons or entities owning lines, cables, and distribution structures, and equipment located in the Public Ways, and provided further that the Franchisee shall not be required to remove any such construction solely to accommodate needs of competing Cable Systems.

(h) Upon written notice from the Franchising Authority, the Franchisee shall remedy a general deficiency with respect to the technical standards described herein within sixty (60) days of receipt of notice and a safety deficiency within forty-eight (48) hours of receipt of notice and shall notify the Franchising Authority when the deficiency has been corrected. The Franchising Authority may request, and if so the Franchisee shall provide, bi-weekly progress reports on the status of repair efforts during the sixty (60) day period.

SECTION 4.2 - REPAIRS AND RESTORATION

(a) Maintenance of Cable System: Franchisee shall adhere to a preventive maintenance policy at the performance standard set by the FCC. Whenever it is necessary to interrupt service for the purpose of making repairs, adjustments, installation or other maintenance activities, Franchisee shall do so at such time as will cause the least inconvenience to Subscribers. Except where there exists an emergency situation necessitating a more expeditious procedure, the Franchisee may interrupt service for the purpose of repairing or testing the Cable System only during periods of minimum use.

(b) Repairs to Public Property: Whenever the Franchisee takes up or disturbs any pavement, sidewalk or other improvement of any public right of way or public place, the same shall be replaced and the surface restored in as good condition as possible as before entry as soon as practicable, subject to all permitting and code specifications. Franchisee shall notify the Franchising Authority when such repairs are completed. If not so repaired or restored, the Franchising Authority shall notify the Franchisee in writing and such repair or restoration shall be made within thirty (30) days, unless delayed by weather or events beyond the reasonable control of Franchisee, after Franchisee's receipt of written notification from the Franchising Authority, unless otherwise agreed by Franchisee and the Franchising Authority. Upon failure of the Franchisee to comply within the time specified (unless the Franchising Authority sets an extended time period for such restoration and repairs) or if such damage presents an emergency situation presenting a threat to public safety, the Franchising Authority may cause proper restoration and repairs to be made and the reasonable expense of such work shall be paid by the Franchisee upon demand by the Franchising Authority.

(c) Failure to Repair: In addition, upon the failure, refusal or neglect of Franchisee to cause any work or other act required by law or by this Renewal Franchise to be properly completed in any Public Way within any time prescribed, the Franchising Authority may cause such work or other act to be performed or completed in whole or in part, and prior to so doing shall submit to Franchisee in advance an itemized estimate of the cost thereof. Franchisee shall, within thirty (30) days after receipt of a statement of the actual cost incurred, pay to the Franchising Authority the entire amount thereof. Subject to Section 8.8 herein, the Franchising Authority, at its option, may

draw upon the bond described herein to recover any cost incurred pursuant to this section, should Franchisee fail to pay such costs.

(d) Repairs to Private Property: The Franchisee shall be subject to all laws of general applicability regarding private property in the course of constructing, installing, operating and maintaining the Cable System in the Town. The Franchisee shall, at its sole cost and expense, promptly repair or replace all private property, real and personal, damaged or destroyed as a result of the construction, installation, operation or maintenance of the Cable System.

SECTION 4.3 - CABLE LOCATION

(a) In all areas of the Town where all of the transmission and distribution facilities of all public or municipal utilities are installed underground, Franchisee shall install its Cable System underground provided that such facilities are actually capable of receiving the Franchisee's cable and other equipment without technical degradation of the Cable System's signal quality.

(b) In all areas of the Town where public utility lines are aerially placed, if subsequently during the term of the Renewal Franchise such public utility lines are required by local ordinance or State law to be relocated aerially or underground, Franchisee shall similarly relocate its Cable System if it is given reasonable notice and access to the public and municipal utilities facilities at the time that such are placed underground. Any costs of relocating utility poles or trenching for the placement of underground conduits shall be proportionally shared or reimbursed, if applicable, by all affected companies, as provided by law.

(c) Nothing in this Section 4.3 shall be construed to require the Franchisee to construct, operate, or maintain underground any ground-mounted appurtenances such as customer taps, line extenders, system passive devices, amplifiers, power supplies, pedestals, or other related equipment.

(d) The rights and privileges granted hereby shall not be in preference or hindrance to the right of the Town, or other governmental agency, improvement district or other authority having jurisdiction, to perform or carry on any public works or public improvements, and should the Cable System in any way interfere with the construction, maintenance or repair of such public works or improvements, Franchisee shall, at its own expense, protect or relocate its system or part

thereof, as directed by Town or other authority having jurisdiction, provided, however that this requirement applies to all persons or entities owning lines, cables, and distribution structures, and equipment and provided, further, that the Franchisee shall not be required to remove or relocate any such construction solely to accommodate the needs of a competing Cable System.

SECTION 4.4 - TREE TRIMMING

The Franchisee shall have authority to trim trees upon and overhanging public streets, alleys, sidewalks and Public Ways and places of the Town so as to prevent the branches of such trees from coming in contact with the wires, cables and equipment of the Franchisee, in accordance with applicable state law and any Town ordinances and regulations. Notwithstanding the foregoing, the authority granted herein to trim trees is subject to state law, including, but not limited to, state laws governing scenic roads, including but not limited to New Hampshire RSA 231:157 and 158.

SECTION 4.5 - STRAND MAPS OR PLANT MAPS

SECTION 8.4 – FRANCHISE FEES

(a) Franchisee shall pay to the Town a Franchise Fee equal to one and four percent (4%) of its Gross Annual Revenues. The Franchise Fee payment shall be made quarterly within forty five (45) days after the end of the Franchisee's fiscal quarters for the preceding quarter.

(a) A cable franchise authority may enforce the customer service standards set forth in paragraph (b) of this section against cable operators. The franchise authority must provide affected cable operators 90 days written notice of its intent to enforce standards.

(b) Effective July 1, 1993, the cable operator shall provide written information on each of the following areas at the time of installation of service, at least annually to all subscribers, and at any time upon request:

- (1) Products and services offered;
- (2) Prices and options for programming services and conditions of subscription to programming and other services;
- (3) Installation and service maintenance policies;
- (4) Instructions on how to use the cable service;
- (5) Channel positions of programming carried on the system; and
- (6) Billing and complaint procedures, including the address and telephone number of the local franchise authority's cable office.

(c) Subscribers shall be advised of the procedures for resolution of complaints about the quality of the television signal delivered by the cable system operator, including the address of the responsible officer of the local franchising authority.

Sec. 76.1603 Customer service--rate and service changes.

(a) A cable franchise authority may enforce the customer service standards set forth in paragraph (b) of this section against cable operators. The franchise authority must provide affected cable operators 90 days written notice of its intent to enforce standards.

(b) Customers will be notified of any changes in rates, programming services or channel positions as soon as possible in writing. Notice must be given to subscribers a minimum of thirty (30) days in advance of such changes if the change is within the control of the cable operator. In addition, the cable operator shall notify subscribers 30 days in advance of any significant changes in the other information required by Sec. 76.1602.

(c) In addition to the requirement of paragraph (b) of this section regarding advance notification to customers of any changes in rates, programming services or channel positions, cable systems shall give 30 days written notice to both subscribers and local franchising authorities before implementing any rate or service change. Such notice shall state the precise amount of any rate change and briefly explain in readily understandable fashion the cause of the rate change (e.g., inflation, change in external costs or the addition/deletion of channels). When the change involves the addition or deletion of channels, each channel added or deleted must be separately identified. For purposes of the carriage of digital broadcast signals, the operator need only identify for subscribers, the television signal added and not whether that signal may be multiplexed during certain dayparts.

(d) A cable operator shall provide written notice to a subscriber of any increase in the price to be charged for the basic service tier or associated equipment at least 30 days before any proposed increase is effective. The notice should include the name and address of the local franchising authority.

(e) To the extent the operator is required to provide notice of service and rate changes to subscribers, the operator may provide such notice using any reasonable written means at its sole discretion.

(f) Notwithstanding any other provision of part 76 of this chapter, a cable operator shall not be required to provide prior notice of any rate change that is the result of a regulatory fee, franchise fee, or any other fee, tax, assessment, or charge of any kind imposed by any Federal agency, State, or franchising authority on the transaction between the operator and the subscriber.

Note 1 to Sec. 76.1603: Section 624(h) of the Communications Act, 47 U.S.C. 544(h), contains additional notification requirements which a franchising authority may enforce.

Note 2 to Sec. 76.1603: Section 624(d)(3) of the Communications Act, 47 U.S.C. 544(d)(3), contains additional notification provisions pertaining to cable operators who offer a premium channel without charge to cable subscribers who do not subscribe to such premium channel.

Note 3 to Sec. 76.1603: Section 631 of the Communications Act, 47 U.S.C. 551, contains additional notification requirements pertaining to the protection of subscriber privacy.

Bills will also clearly delineate all activity during the billing period, including optional charges, rebates and credits.

(b) In case of a billing dispute, the cable operator must respond to a written complaint from a subscriber within 30 days.

(c) A cable franchise authority may enforce the customer service standards set forth in this section against cable operators. The franchise authority must provide affected cable operators 90 days written notice of its intent to enforce standards.

EXHIBIT D CUSTOMER SERVICE REGULATIONS

47 Code of Federal Regulations

Sec. 76.309 Customer Service Obligations

(a) A cable franchise authority may enforce the customer service standards set forth in paragraph (c) of this section against cable operators. The franchise authority must provide affected cable operators ninety (90) days written notice of its intent to enforce the standards.

(b) Nothing in this rule should be construed to prevent or prohibit:

(1) A franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards set forth in paragraph (c) of this section;

(2) A franchising authority from enforcing, through the end of the franchise term, pre-existing customer service requirements that exceed the standards set forth in paragraph (c) of this section and are contained in current franchise agreements;

(3) Any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not specifically preempted herein; or

(4) The establishment or enforcement of any State or municipal law or regulation concerning customer service that imposes customer service requirements that exceed, or address matters not addressed by the standards set forth in paragraph (c) of this section.

(c) Effective July 1, 1993, a cable operator shall be subject to the following customer service standards:

(1) Cable system office hours and telephone availability--

(i) The cable operator will maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week.

(A) Trained company representatives will be available to respond to customer telephone inquiries during normal business hours.

(B) After normal business hours, the access line may be answered by a service or an automated response system, including an answering machine. Inquiries received after normal business hours must be responded to by a trained company representative on the next business day.

(ii) Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety (90) percent of the time under normal operating conditions, measured on a quarterly basis.

(iii) The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.

(iv) Under normal operating conditions, the customer will receive a busy signal less than three (3) percent of the time.

(v) Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.

(2) Installations, outages and service calls. Under normal operating conditions, each of the following four standards will be met no less than ninety-five (95) percent of the time measured on a quarterly basis:

(i) Standard installations will be performed within seven (7) business days after an order has been placed. "Standard" installations are those that are located up to 125 feet from the existing distribution system.

(ii) Excluding conditions beyond the control of the operator, the cable operator will begin working on "service interruptions" promptly and in no event later than 24 hours after the interruption becomes Known. The cable operator must begin actions to correct other service problems the next business day after notification of the service problem.

(iii) The "appointment window" alternatives for installations, service calls, and other installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. (The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.)

(iv) An operator may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.

(v) If a cable operator representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time that is convenient for the customer.

(3) Communications between cable operators and cable subscribers--

(iii) Refunds--Refund checks will be issued promptly, but no later than either--

(A) The customer's next billing cycle following resolution of the request or thirty (30) days, whichever is earlier, or

(B) The return of the equipment supplied by the cable operator if service is terminated.

(ii) Credits--Credits for service will be issued no later than the customer's next billing cycle following the determination that a credit is warranted.

(4) Definitions--

(i) Normal business hours--The term "normal business hours" means those hours during which most similar businesses in the community are open to serve customers. In all cases, "normal business hours" must include some evening hours at least one night per week and/or some weekend hours.

(ii) Normal operating conditions--The term "normal operating conditions" means those service conditions which are within the control of the cable operator. Those conditions which are not within the control of the cable operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions.
