This map displays broadband access information submitted to the NH Broadband Mapping & Planning Program (NHBMPP) as of March 31, 2013. The map has been generated for the sole purpose of verifying locations of DSL and cable broadband services in each town in New Hampshire. Broadband is defined as access that is at least 768 kbps downstream and 200 kbps upstream.

For more information on this project, please visit the NHBMPP web site at: iwantbroadbandnh.org
