---	--	---

Critical facilities were provided by the Town of New Castle. Information was gathered to accompany the development of a Hazard Mitigation Plan under the NH Office of Emergency Management, Winter, 2006.

Base data (town boundaries, hydrography, roads, railroads and utility lines) are taken from the USGS Digital Line Graph data, 1:24,000, as archived in the GRANIT database at Complex Systems Research Center, Institute for the study of Earth, Oceans and Space, University of New Hampshire, Durham, NH, 1992-1999. Roads have been updated from work done by Rockingham Planning Commission and NH Department of Transportation. Partial updates have been completed through 2005.
