

UTAH  
 DEPT. OF TRANSPORTATION  
 CALIFORNIA AVE. INTERCHANGE  
 S EAVS1 & 3 EAVS1  
 RETAINED EARTH WALLS

CRIB WALLS  
 CRIB WALLS ARE USED TO RETAIN EARTH AND ARE CONSTRUCTED OF CONCRETE OR STEEL PILING WITH A CRIB FILLING. THE CRIB FILLING IS PLACED IN THE INTERSTICES OF THE PILING AND IS COMPACTED TO PROVIDE A MASSIVE WALL. THE CRIB WALLS ARE DESIGNED TO RESIST THE LATERAL PRESSURE OF THE EARTH BEHIND THEM. THE CRIB WALLS ARE CONSTRUCTED IN ACCORDANCE WITH THE UTAH DEPARTMENT OF TRANSPORTATION SPECIFICATIONS FOR CRIB WALLS.

**AST** Corboration  
 Job No. 130888  
 Location: S14101, 13500  
 1414 Port & Parkway  
 Dallas
